Mobitor expands device support to Treo™ Pro smartphone by Palm

Mobitor's Mobile Business Manager Software available on Treo Pro.

San Ramon, CA – August 21, 2008

Concurrent with the release of the new Treo™ Pro smartphone by Palm, Mobitor® today announced availability of its Mobile Business Manager™ (MBM) system for the new device. Treo Pro, which runs Windows Mobile 6.1, includes Wi-Fi and GPS capabilities in a new thin form factor.

Mobitor has worked closely with Palm since the first release of a Windows Mobile powered Palm smartphone. Mobitor optimized the user interface in MBM to fit the one-handed ease of use pioneered by Palm. “The new Treo Pro clearly raises the bar in convergence and performance”, claims Jerry Goedicke, President and CEO, Mobitor Corporation. Goedicke continues, “The evolution of the Treo line-up has helped us extend our reach in the Enterprise market.”

MBM goes beyond wireless email to extend enterprise CRM, ERP, and other line of business systems wirelessly out to the field where they are needed the most, that is, meeting with customers. Mobitor has successfully deployed MBM in a variety of industries, including Manufacturing and Distribution, Healthcare, Financial Services, and Consumer Packaged Goods.

About the Treo Pro smartphone by Palm

With its streamlined design and Palm® shortcuts layered on Windows Mobile 6.1 Professional, Treo™ Pro smartphone is a unique combination of sleek simplicity and robust productivity -- including email, Wi-Fi and GPS capabilities¹ -- that meets the needs of businesses and end users alike. With high-speed UMTS/HSDPA network capabilities, Treo Pro is a sleek world phone that's ideal for companies with an international work force.² Users can quickly respond to business and personal email, access the web, stay on top of appointments and contacts, and use Wi-Fi or GPS on the go. Treo Pro has a full QWERTY keyboard and one-touch shortcut buttons for easy-to-use mobility. Its thin design blends a flush, high-resolution color touch screen and a full QWERTY keyboard with a removable battery that packs up to five hours of talk time and enough strength for the business user's needs, offering a powerful yet effortless mobile experience. More information about the Treo Pro smartphone is available at www.palm.com.
